INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference A 5457-PC /GE	FOR FURTHER ACTION See Notification of Transmittal of International Preliminary Examination Report (Form PCT/IPEA/416)	
International application No. PCT/DE2003/000515	International filing date (day/month/year) 19 February 2003 (19.02.2003)	Priority date (day/month/year) 19 February 2002 (19.02.2002)
International Patent Classification (IPC) or national classification and IPC F16K 31/08		
Applicant AWECO APPLIANCE SYSTEMS GMBH & CO. KG		

1. This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36.
2. This REPORT consists of a total of <u>5</u> sheets, including this cover sheet. <input checked="" type="checkbox"/> This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT). These annexes consist of a total of <u>1</u> sheets.
3. This report contains indications relating to the following items: I <input checked="" type="checkbox"/> Basis of the report II <input type="checkbox"/> Priority III <input type="checkbox"/> Non-establishment of opinion with regard to novelty, inventive step and industrial applicability IV <input type="checkbox"/> Lack of unity of invention V <input checked="" type="checkbox"/> Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement VI <input type="checkbox"/> Certain documents cited VII <input type="checkbox"/> Certain defects in the international application VIII <input type="checkbox"/> Certain observations on the international application

Date of submission of the demand 19 September 2003 (19.09.2003)	Date of completion of this report 08 June 2004 (08.06.2004)
Name and mailing address of the IPEA/EP	Authorized officer
Facsimile No.	Telephone No.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/DE2003/000515

I. Basis of the report

1. With regard to the elements of the international application:*

- ☐ the international application as originally filed
- ☒ the description:
pages _____ 1-14 _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____
- ☒ the claims:
pages _____ 2-24 _____, as originally filed
pages _____, as amended (together with any statement under Article 19
pages _____, filed with the demand
pages _____ 1 _____, filed with the letter of _____ 12 November 2003 (12.11.2003)
- ☒ the drawings:
pages _____ 1/2-2/2 _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____
- ☐ the sequence listing part of the description:
pages _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language _____ which is:

- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have resulted in the cancellation of:

- ☐ the description, pages _____
- ☐ the claims, Nos. _____
- ☐ the drawings, sheets/fig _____

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/03/00515

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1 - 24	YES
	Claims		NO
Inventive step (IS)	Claims	1 - 24	YES
	Claims		NO
Industrial applicability (IA)	Claims	1 - 24	YES
	Claims		NO

2. Citations and explanations

1. Reference is made to the following document:

D1: US 2 983 278 A (HEINTZ RICHARD P.).

2. Document D1 is considered to be the prior art closest to the subject matter of claim 1. Said document discloses (the reference in parentheses refer to D1):

2.1 a valve with two pole shoes (28, 29), at least one pole shoe being provided with a first fluid line (34) and a first valve seat (37), the fluid line (34) being connected via the valve seat (36) to a valve chamber (23) in which a valve body (27) is movable between at least two positions, and at least one guide part (10) being provided in the valve housing (11, 12) for the linear guidance of the valve body (27) in an axial direction between the switching positions.

The subject matter of claim 1 therefore differs from the known valve in that the pole

/...

shoes (3, 4) and the guide part (15) are in a tubular valve housing (2).

The subject matter of claim 1 is therefore novel (PCT Article 33(2)).

- 2.2 For a person skilled in the art, the documents cited in the search report or acknowledged in the introductory part of the description do not suggest modifying a valve as per D1 in the manner defined in claim 1.

The features of claim 1, in particular that the two pole shoes and the guide part are in a tubular valve housing (simplified assembly), are the result of a step which is not a logical development of the cited prior art. In consequence, the valve arrangement according to claim 1 involves an inventive step (PCT Article 33(3)).

- 2.3 The subject matter of claim 1 can be made and is therefore considered industrially applicable (PCT Article 33(4)).

3. Claims 2-24:

dependent claims 2-24 contain advantageous and non-obvious embodiments of a valve device according to claim 1.

Thus, claims 2-24 also satisfy the requirements with regard to novelty, inventive step and industrial applicability (PCT Article 33(2) to (4)).
